

SA 8000: Intent and Scope

For more than 80 years Bridgford Foods has been committed to production only the highest quality and safe food products; meat snack products that are not only safe but provide the highest value to its customers.

The intent of SA8000 is to provide an auditable, voluntary standard, based on the UN Declaration of Human Rights, ILO and other international human rights and labor norms and national labor laws, to empower and protect all personnel within an organization's control and influence who provide products or services for that organization, including personnel employed by the organization itself and by its suppliers, sub-contractors, sub-suppliers and home workers. It is intended that an organization shall comply with this Standard through an appropriate and effective Management System.

The scope of this program includes, but is not limited to, rules and regulations that pertain to:

- Child labor
- Forced and/or compulsory work
- Human trafficking
- Employee health and safety
- Working hours
- Discrimination

Bridgford Foods Corporation
