**Product Description** Bridgford Honey Wheat Yeast Bakery Roll Dough provides an opportunity for the operator to bake their own fresh rolls. Each roll is perfectly formed, ready for proofing and baking. **Keep frozen until ready to use for maximum shelf life. Once thawed, follow baking instructions before eating.**

**Benefit of Using this Product** 0g Trans Fat. Easy preparation, a convenient freezer staple. Formula using Whole Wheat Flour. Whole Wheat Flour is the first ingredient. 51% of flour from Whole Grains. 2 grams of fiber per roll. Made with Soybean Oil. Fits into the Healthier US School Challenge Whole Grains Resource.

**Serving Suggestion** May be served in baskets, on individual bread plates, or on sheet pans for cafeteria lines. Excellent for all types of Commercial Restaurants, In-Store Bakeries, and School Cafeteria Service Institutions.

**Preparation and Cooking Instructions** Remove desired number of frozen rolls from case. (One layer of 60 rolls will fill a standard 18 x 26 baking sheet pan.) Gently separate the individual rolls and arrange evenly on a greased sheet pan. The gap between rolls should be about 1 inch. Brush any excess flour from rolls at this time. Allow rolls to rise in a proofer or a warm, draft free area for approximately 1 and 1/2 hours or until they are at least 3 times their original size. (Raising may be accelerated by placing pre-panned rolls in a retarder or cooler overnight (about 40 degrees); pans must be well covered with plastic to prevent dehydration of the rolls.) Bake in a preheated 325 degree convection oven (375 degree conventional oven) for 12 to 14 minutes or until golden brown. To maintain a soft crust, brush with melted butter or margarine while still hot. Turn out onto a cooling rack and cool for 5 minutes before serving.
